

Boat trip – The Karaburun Peninsula

(Discover the treasures of Albanian Riviera)

- We will depart for port of Vlora to board the boat, which will take us on a lovely cruise along the Karaburun Peninsula. It is the largest peninsula of Albania, it has an area of 62 km² (24 sq mi) and is not populated. It is 16 kilometers (9.9 mi) long with a width that varies from 3 to 4.5 kilometers. The peninsula is a Nature Reserve, and parts are still a military zone. While its' surrounding sea waters form part of the Karaburun - Sazan National Marine Park.
- Near there is a point where the Ionian and Adriatic seas meet. You can see also the infamous Sazan island, which has been until recently an army base. Sazan has a coastline of 15 km and along its western shore there are cliffs descending up to 40 meters underwater. Sazan has a climate unusual for Albania due to its' maritime location. The flora is different from that of the rest of Albania as it is subtropical, like in countries of North Africa.
- We will see the Haxhi Aliu's pirate cave and will have some time on a small beach where you can swim in the crystal-clear waters. After some "me time" we will return back to Vlora and will travel back to your hotel.
