Flame Tree Cottages is a small beach hotel in a private garden on the North West coast of the island. It is situated at the quiet end of the North West Nungwi tourist area, which boasts some of the nicest beaches in Zanzibar.

It faces west for perfect sighting of the setting sun. To watch the sunset and the traditional sailing fishing dhows sailing out to the fishing grounds or coming back with their catch in the foreground is magical. Nungwi is a traditional fishing and dhow building village.

Flame Tree Cottages is a low-density development of individually styled cottages with spacious rooms and large verandas. Breakfast is usually served on your own cottage veranda.

The Hotel has an aura of tranquility and a feeling of spaciousness in its large garden. The service is friendly and personal but without being intrusive.

The Hotel and gardens are private to ensure the guests have maximum seclusion and privacy whilst sunbathing or lounging on a hammock. Short steps at the front lead to the beach and to the turquoise blue sea of the Indian Ocean.

The tropical garden has a mixture of Coconut palms, Casuarinas trees, Frangipani trees Banana trees and flower beds full of colourful plants set amidst the lawns. The Garden and Swimming Pool view rooms enjoy a country atmosphere with bird song.

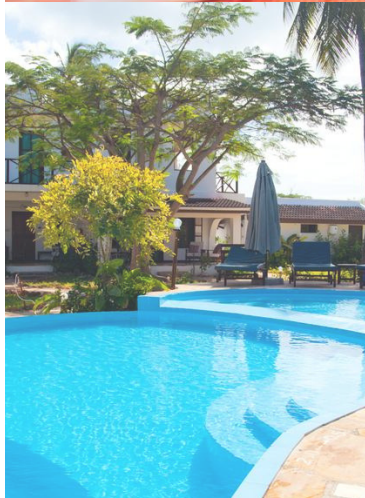

Hammocks and loungers are distributed at the sun bathing area facing the beach as well as in the garden.
