ECOLOGY

Zanzibar's "Eco Villas" operate entirely on solar energy without connection to the public grid whatsoever. We use the Zanzibar sun to produce hot water and electricity, a backup generator is available for cloudy days. Our water supply is mainly harvested rain water, backed up by the public water supply.

ACCOMMODATION

Milele Villas consist of 2 individual beach villas, each with its own private infinity pool, nestling in tropical gardens with breathtaking views over the Indian Ocean.

Adhering to our ethos of following natural and cultural traditions, we used local building techniques and natural materials to create traditional beauty without sacrificing modern comforts. The design is heavily influenced by the distinctive Afro-Arabian style, unique to the Swahili coast, combining rustic charm with exotic opulence. All furniture is crafted from recycled dhow wood in our very own furniture workshop.

VILLA TATU

Features 2 double rooms, 2 triple rooms and a huge lounge appointed with another double bed, which sums up to accommodating a total of 12 persons. Additional beds can be put in the downstairs rooms for a supplement.

The rooftop terrace is perfect for sundowners, having dinner under the African stars or breakfast while watching the sunrise.

VILLA LISA

HOTEL GRADING

We are officially a 3* hotel and will never be a 5* resort because to be so would compromise our values. Instead we seek to find a balance between meeting the expectations of discerning guests with protecting the fragile coastal ecosystems we operate within. For this reason, we offer simple but authentic and sustainable luxury. However, we believe this makes our kind of luxury all the more magnificent.
