BIG GAME FISHING

Big game fishing in the Maldives promises big time thrills. From a depth of more than 30 meters, 20-50 miles off-shore, the deep brings the biggest, badest, game fishes for the most extreme anglers. Big Game Fishing gives you the opportunity to capture the larger species of fish that patrol the deeper waters close to the outer reef. Dare to come face to face with the Maldivian Marlin, Sailfish, Tuna, Dorado, GT and Wahoo using Traditional hand line fishing or modern techniques such as jigging and heavy duty trolling. What monsters lurk below the Maldivian deep. Catch of the day will be served as lunch.
