Massage Menu

A massage at the hands of an experienced, intuitive therapist is a time-honoured journey of enchantment. At Solasta Spa, this journey is abetted by Omorovicza Hungarian healing techniques and ingredients, coupled with the elemental infusions of Maison Caulières.

The Maison Caulières

Clarity: it so often eludes us. But there are ways to summon and strengthen it. In this classical European massage, healing hands ease tension and spark circulation. Infused oils and warm honey are a soothing balm, as their sweet floral aroma uplifts the spirit. Circulation improves, nourishing the senses and restoring energy to the entire body.

Thai

An ancient path to healing, a message guides your body through a series of yoga-like stretches and pressure-point therapy in this traditional Thai massage. Safe in the care of an expert practitioner, you'll experience a restored sense of balance as ligaments are drawn and joints aligned. Refreshed and reinvigorated, brimming with natural energy. Thai massage clothing is provided.

The Omorovicza

Beauty brand, Omorovicza, has harnessed the healing power of Hungary's mineral-rich waters and infused it into an exclusive range of healing oils. Deep muscle massage dissolves tension and promotes circulation, enhanced by quartz stones and lymphatic drainage techniques.

Spinal Connection: Volcanic Stone Healing

The weight of responsibility builds over time. Pressure mounts, bears down upon us. Settles into our bones. Cast off that burden. This treatment harnesses elemental energies – hot volcanic stone – to promote circulation and inner balance. Flowing massage enhances circulation and lymph flow for greater benefit.

Hot Poultice

Unburdened, through better lymph and blood circulation. Soothing stiff joints, improving flexibility and firming up skin in the process. Inspired by Ayurvedic healing traditions, a treatment of warming poultices filled with minerals, healing herbs and essential oils of lavender, chamomile and marigold are worked into the body along energetic pathways. Rhythmic massage strokes soothe muscles and soften old wounds.

Mum-to-be*

A specialised massage therapy adapted to feed the skin and senses of the expectant mother. Emotionally balancing, healing, and renewing, essential rosehip oils nourish and reinforce the skin, protecting against stretch marks. This rejuvenating treatment also nourishes the soul, realising a profound sense of inner peace.

The Yoga Pavilion

Our overwater yoga pavilion is a sala to the sea and sky. An untethered space where the body is refined, and consciousness augmented. The grace of movement, focused poise and body alignment draw practitioners in, healing wounds within and mending injuries without. Come create an alternate space where you can escape the pressures of daily life.

Yoga comes in myriad styles and practices, honed and refined over millennia. This traditional practice represents a living, breathing journey to wellness, undertaken by countless generations that have gone before. Modern interpretations build upon this traditional foundation.

But yoga is ever and always a personal experience. It transforms us – even as we shape and experiment with its execution.

At Solasta Spa, we offer the opportunity to practice yoga in any way you please: classical Hatha postures and breathing; Ashtrang 6 series; flowing Vinyasa; slow, extended holds for joint mobility strength of Yin; or Aerial yoga poses another angle. The parameters are as varied and profound as your practice.

Our yogis offer expertise, inspiration and encouragement as they escort you along a path of personal expression through yogic practice and meditation. If you have any questions at all, you can ask them directly – or enquire with Solasta Spa before your visit.

We host Freedom Yoga each morning and evening. Salute the sun at dawn or bid it farewell as it journeys across the meridian. Of course, the timing of these sessions changes with the seasons. Ask your butler for the current sunrise and sunset schedule. Your butler or spa reception will also be delighted to arrange personal yoga, meditation or gym-training sessions on your behalf.

Spa Etiquette

While spa treatments are available at any time of day or night with advance booking, our normal opening hours are from 8am to 8pm daily.

Come as you are. Our spa pavilions are private, and we provide all bathrobes, slippers and anything else you may need.

Each pavilion has its own changing room, toilet and shower for your convenience.

The steam room and outdoor bathing area of each pavilion can be booked in addition to your spa treatment at a charge.

For yoga practice, comfortable clothing that allows unimpeded movement is a necessity. If you're unsure of what to wear, your house master will be happy to advise.

Contact your house master to schedule or rebook a spa treatment. Likewise, our spa team will be happy to assist.

The house master will co-ordinate your arrival at the spa and let you know in advance when to be ready for collection.

We recommend that men shave prior to a facial. Body shaving is not recommended before body treatments (such as wraps and scrubs).

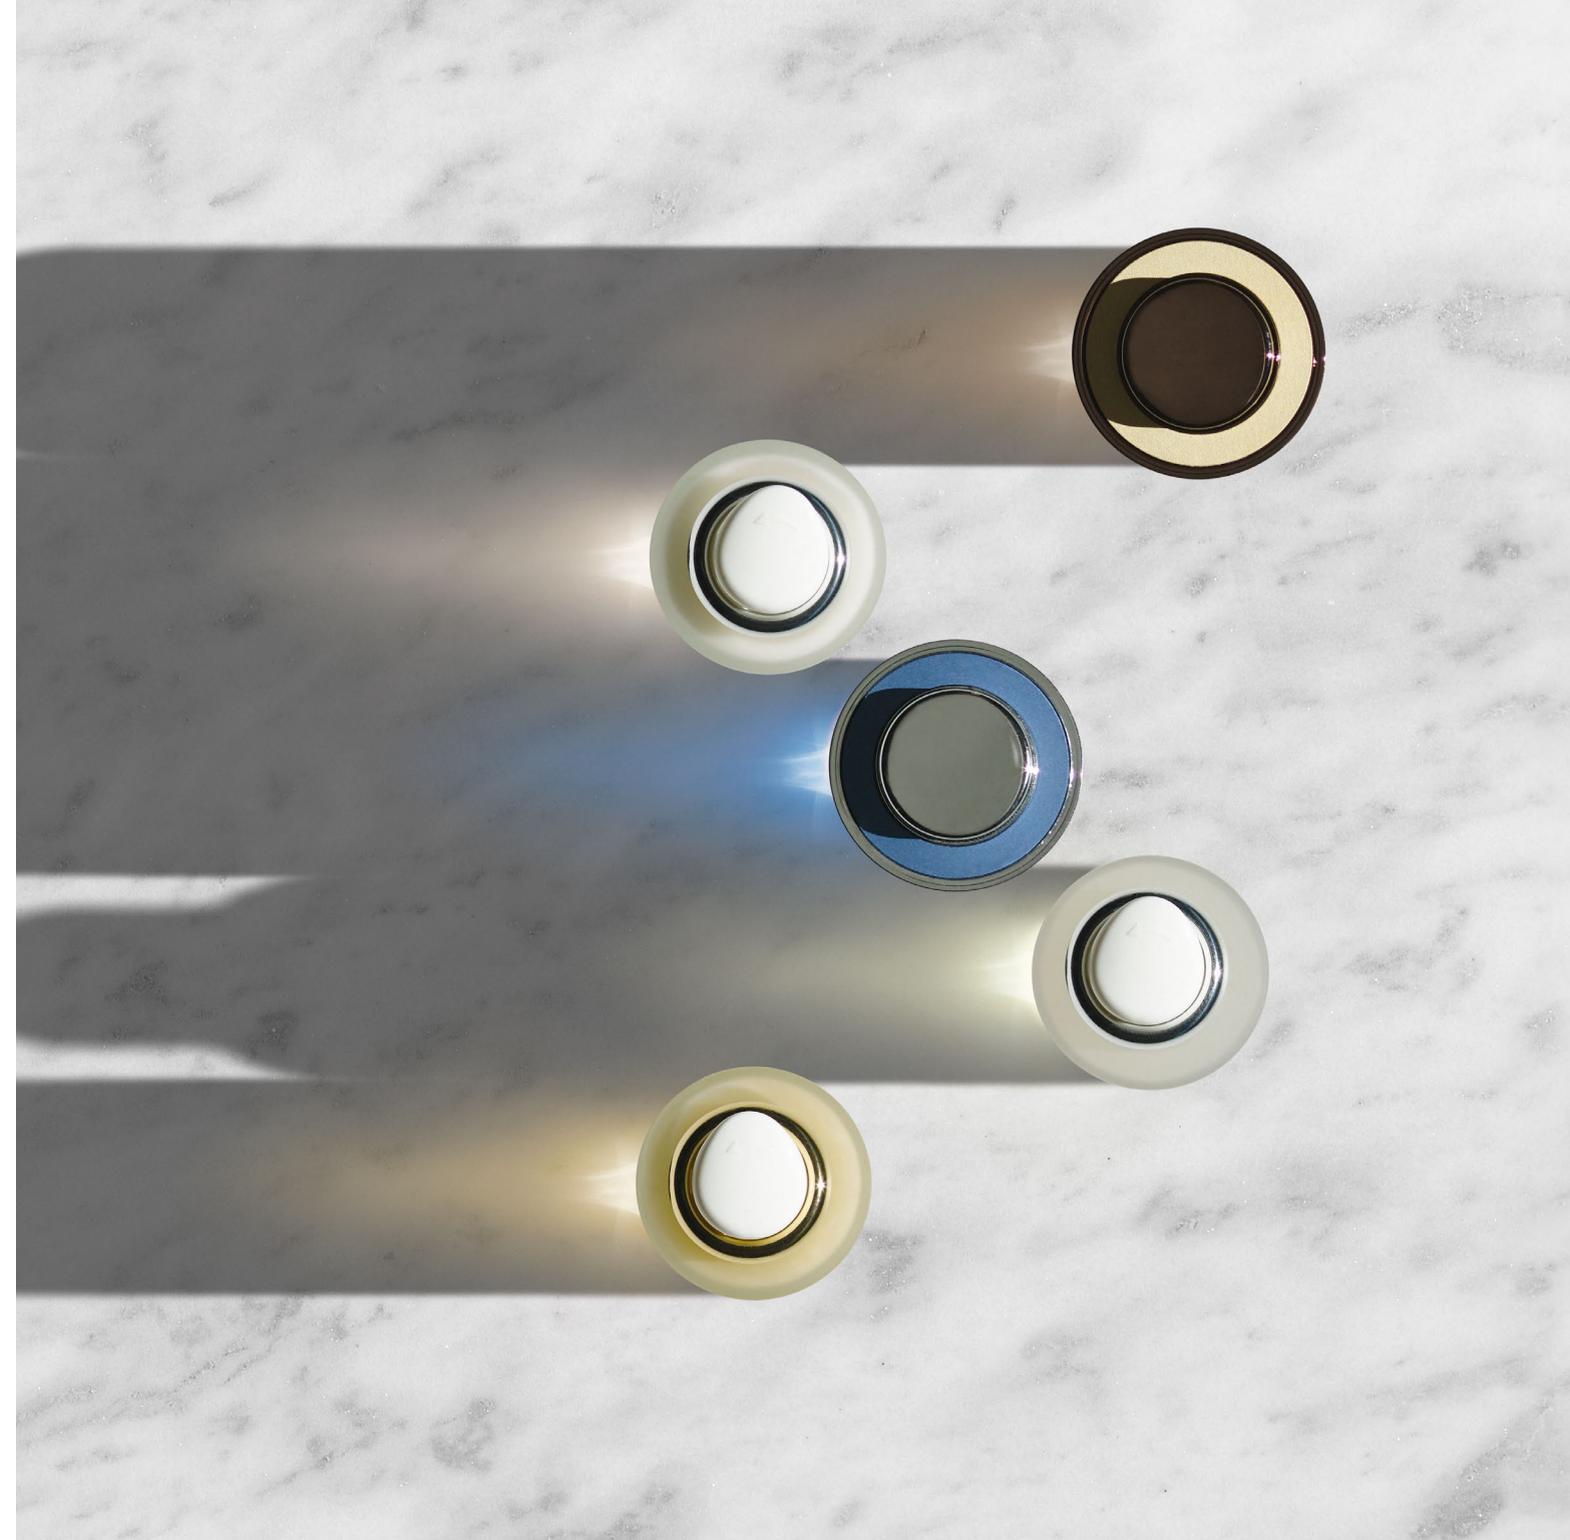

We ask that you leave all valuables in the house safe when visiting the spa.

Guests must be at least 16 years old to enjoy the Spa. Those aged 6 through 15 are permitted to enjoy treatments as long as a parent or guardian (over the age of 18) is present with them in the treatment room.

Many of our spa treatments can be enjoyed in the comfort of your own house; a supplement of \$100 is charged for this.

After-hours treatments will be charged at an additional 50% supplement.

We ask that you tell us all about yourself in a brief pre-consultation so that we can better tailor your treatment to your needs.
