## HISTORICAL REFERENCES

Historically, Crete was sold by the Byzantine Empire to the Venetians in the early 13th century. The influence on the island's architecture during the Venetian rule, along with the Turks, remains vivid until today. Cultural symbols and treasures were incorporated within the Cretan Heritage from the early years to echo the presence of a glorious past into the recent modern days of international Humanism. This historical course across the ages is reflected through the Castello Infinity Suites' elements to form its powerful identity.

## DESIGN

With Venetian influenced architecture and stylish interior design, the Castello Infinity Suites merges two dimensions into one, bringing the past and the present together. A perfect haven, with panoramic sea views, for pleasure and relaxation at a travel destination known as an all-time favorite.

## GASTRONOMY

We have designed a cosmopolitan meeting point for residents & visitors, looking for premium international tastes based on the authentic ingredients of the Cretan land. In addition to this tasteful and healthy combination, the panoramic sea views and the great Cretan hospitality fulfil the expectations of every food lover.
