OVERVIEW

Capella Singapore offers an inspiring natural setting while providing easy access to Singapore's financial and shopping districts. Residing on 30 acres of lush rainforest, the resort's peaceful setting on a knoll is a rare masterpiece, boldly marrying Singapore's rich colonial heritage with a symphony of contemporary architectural curves and designs.

ART CURATION

Capella Singapore is an ardent supporter of the arts. Since the construction phase, the resort has installed more than 900 art pieces on its premises and integrated them as part of the hotel design. The remarkable incorporation of the classy modern hotel wing, alongside the colonial heritage buildings, is a masterpiece on its own. Ranging from big artworks to smaller photographs at every corner of the hotel, these art pieces set the mood and atmosphere of the resort.
